Medical Authority Tells What  
This Condition Really  
Means.

"When you are languid and listless, or lack ambition and feel so melancholy that life seems scarcely worth the living, it is absolutely necessary that you take treatment to correct these sub-normal conditions, because you are suffering from derangements of a vital organ," declares one of the greatest medical authorities.

That "tired feeling" means a good deal more than is generally realized. It is not laziness, it is a physical ailment that needs correction quickly before it becomes even more serious by taking a firm hold on you.

Throw off that nervous depression. It is your duty.

Tanlac, the tonic, appetizer and invigorant, that builds new tissues, vitalizes the blood and acts so favorably on ailments of the stomach, liver and kidneys and catarrhal affections of the mucous membranes, is designed especially to correct these conditions. The results of the Tanlac treatment are amazing. It tends to put you back in body and mind like those old-fashioned, but most sensible folks—the pioneers, and to make you sturdy and of real manhood and womanhood.

Men and women, from the highest to the lowest walks of life, everywhere are testifying to the relief Tanlac has brought them. No other remedy has ever won such great endorsements that can only come from superlative merits.

Tanlac can now be had in Columbia at the Page & Hamilton drug store, where it is being fully explained to all questioners.
